

Executive Office of the President U.S. DOGE Service

Assignment Agreement Bureau of Consumer Financial Protection

PARTIES

This agreement documents the assignment of a team of employees from the U.S. DOGE Service (USDS) to the Bureau of Consumer Financial Protection (CFPB).

PURPOSE OF AGREEMENT

USDS is assigning employees to CFPB on a temporary basis in accordance with the President's Executive Order "Establishing and Implementing the President's Department of Government Efficiency" dated January 20, 2025.

In accordance with this order, Agency Heads shall take all necessary steps, in coordination with the USDS Administrator and to the maximum extent consistent with law, to ensure USDS has full and prompt access to all unclassified agency records, software systems, and IT systems. USDS shall adhere to rigorous data protection standards.

Upon execution of this agreement, all assigned USDS employees should be appropriately onboarded to CFPB systems to facilitate access to necessary systems and records.

CFPB shall provide all necessary identification to allow access and communications, to include badges, phones, e-mail account, computers, network access, and permissions for assignees to complete work for CFPB. This access includes enabling the team to access and store documents related to their work for CFPB on CFPB's network and/or hardware. For each assignee, this includes a laptop computer or ThinClient that connects to the CFPB IT network and a CFPB email address. CFPB shall provide this access within one business day of the written request.

AUTHORITY

USDS is assigning employees to CFPB on a temporary basis pursuant to the President's Executive Order and in furtherance of the purposes of appropriations available to USDS to carry out projects "for the furtherance of integrated, efficient, secure, and effective uses of information technology in the Federal Government," Division E, Consolidated Appropriations Act, 2023 (Public Law 117-328), as continued by Public Law 118-15 and H.R. 6363 as signed by the President; section 4010, and any applicable interagency agreement. USDS and CFPB mutually agree that this arrangement is the most expeditious way of executing on the President's Order and furthering the purpose of the appropriation and any applicable interagency agreement with respect to the work at CFPB.

PERIOD OF AGREEMENT

The terms and conditions described are effective from January 20, 2025 through July 4, 2026. The parties may extend this agreement through a signed addendum.

SCOPE OF WORK

USDS will collaborate with the CFPB's designee on the placement of the assignees at CFPB. The USDS Administrator reserves the right to shift and re-allocate resources based on USDS's overall highest priority digital service needs. USDS will discuss projects and the overall engagement with CFPB on an as needed basis.

USDS Assignees Will:

- Work on software modernization initiatives to improve the quality and efficiency of government-wide software, network infrastructure, and information technology (IT) systems.
- Promote inter-operability between agency networks and systems, ensure data integrity, and facilitate responsible data collection and synchronization.
- Report to and be supervised by the Director of the CFPB for purposes of all work performed under this Agreement.
- Use software engineering, modern architecture and system design, product and team leadership, delivery focus, and/or executive leadership expertise to champion the use of modern technology development and management approaches.

CFPB Will:

- Ascertain and mitigate any conflicts of interest or confidentiality protocols during the assignment.
- Provide technical and operational support to the assignees for all CFPB activities related to this assignment.
- Cover travel or training expenses required to achieve assignment objectives specific to CFPB's mission (unless otherwise negotiated between USDS and CFPB).
- Maintain records for the team, including all project-related documents that must be maintained pursuant to the Federal Records Act and CFPB policy.
- For any CFPB documents provided to the USDS team, clearly mark any material that contains legally protected information.
- Create a process by which CFPB will: (1) review any final project-related documents created by the assignees that may contain legally protected information, and (2) inform the assignees of any information in those documents that CFPB considers legally protected.
- Promptly notify and coordinate with the USDS Office of General Counsel if the assignees' work in this matter becomes the subject of a request for information (such as under the Freedom of Information Act or by the media) or any oversight inquiries from, for example, a Congressional committee, any federal Office of Inspector General, or the Government Accountability Office (GAO).
